

My Qualifications: Eyespy Home Inspections is not a franchise, not owned by an American company but family owned and operated. I am a proud Canadian and a proud home owner in Guelph area not just a P.O. Box. Being the owner, I am driven for success and I feel this allows me to give each customer the most personal attention possible. I like my job, I like helping people. I have been involved in home renovations for over thirty years. I have owned and operated my own Home Improvement business for the past seven years: <http://www.honeydo-list.ca/> (which I have now closed down due to relocation) and my Google site <https://eyespyhomeinspections.business.site/?m=true> and <http://www.homemove.biz...eyespy-home-inspections>

I take my job very seriously and will do my utmost to satisfy my customers. I am also an A+ certified computer technician which has been of great value to me and my customers over the years.

This is not a franchise; I have over 30 years construction related experience and have passed more than the necessary courses to have achieved the designation Certified Professional Inspector Home inspector.

Training is ongoing for all associated Home Inspectors and I have had the privilege of working with many trades, Master plumbers, Master Electricians, roofers, carpenters and have benefited immensely from their mentoring. I have over the years in my many home improvements observed many, many defects in workmanship and finish.

My first hand knowledge in defects undoubtedly helps in the Home Inspection field. In 2008 I wrote and passed my home inspection certification exams with Internachi, the largest Home Inspection association in the world.

I decided in 2009 to pursue home inspections full time and began my studies and writing all the exams to get all the necessary qualifications in order to serve you, the customer better.

Education is ongoing with constant upgrading/exams and yearly association exams. I have recently enrolled in CertainTeed sustainable building programs in my constant effort to upgrade my skills. In 2011 I achieved my IAC2 mold, radon certification. 2012 brought more upgrading with thermographic imaging certification (infrared) and Certified Master Inspector ® status. In September of 2013 I achieved CCHI status the new standard for home inspectors which is also recognized in other provinces.

I am a Co Founder and also on the Board of Directors for the Ontario Association of Certified Home Inspectors

<http://ontarioachi.ca/>

2019 saw me achieve my National Certificate Holder and Registered Home Inspector designations as a member of Cahpi <https://www.cahpi.ca/index.php?lang=en>

Feel confident that you will have made the right choice when you choose Eyespy Home Inspections!

Scott May CMI, CCHI, RHI, NCH, IAC2 Certified
