We used Scott for our first home in Guelph after living the condo life. We booked online with a simple process of picking date and inspection type. He was on time and very detailed. Had his tools ready and was able to have patience with us as we asked questions during the inspection. Additionally to official report items, he recommended changes or things that could use an update or pieces that were missing- for example, a spring in the closet door was missing. He sent out the report the next day and it helped us to make the right decision in buying. Would highly recommend and will be using him for other inspections.- Roza P

These are the greatest people. Scott in particular. Always being there to assist and explain all details of the inspection now and in the future. Couldn't have bought my new home without him.- carol e

a year ago- Scott May was extremely thorough in doing our home inspection. His genuine concern that the home would be a safe place for our family was very evident and he spent the time walking us through both the things that were right as well as the things that needed to be changed. This made us feel very comfortable in purchasing the house that we did! Thanks Scott![Jesse Christink](#)
